Dear Mr. Franke:

Please find enclosed a report submitted by Hood-Rich Consulting Engineers on the closure of the waste water lagoon located at Advanced Circuitry Division of Litton in Springfield, Missouri. This report, signed by Mr. Hickman as a independent registered Professional Engineer and myself as operator of the lagoon, completes the requirements of 40CFR265.115 "Certification of Closure".

We appreciate the cooperation which the EPA and DNR has given to allow this successful completion of closure.

If any further information is needed, please contact me at any time.

Sincerely,

David Edwards
